## Railway Labor Act Delays But Doesn't Prevent Strikes

Story of the Day  
"Mummy, what becomes of an automobile which gets too old to run?"  
"Why, my dear, somebody sells it to your father."

Four major railroad systems are tied up by a strike of the Firemen's Brotherhood, the union demanding an extra fireman for multi-unit diesel locomotives.

For the present the dispute doesn't affect local railroads, but traffic beyond St. Louis is a question mark. The two largest lines entering St. Louis from the East, the Pennsylvania and New York Central, are struck; so is the Southern, serving New Orleans, Birmingham and Atlanta; and the Santa Fe to the West Coast.

It isn't a nationwide railroad strike as yet, but it's the larger part of one.

Which reminds us that the Railway Labor Act, for many years acclaimed the best piece of labor legislation ever written by the federal government, isn't perfect.

All that the law does is to establish a series of cooling-off periods, arbitration and fact-finding boards — which must be gone through before a strike may be called. Trouble can be delayed but not prevented.

When a railroad dispute is referred to a fact-finding board, the decision of that board is not binding on either the roads or unions.

Twice the firemen have taken their argument for an extra man aboard the diesels to a presidential fact-finding body — and twice the arbitrators have ruled for the roads and against the brotherhood.

Legislation is coming up in the congress which proposes to make arbitration decisions in railroad matters mandatory on both roads and unions. It begins to look like this drastic step is necessary.

Constantly increasing freight rates are gradually running business away from the railroads. One more round of increases to meet the firemen's demands might finish the whole business of railroading as a private enterprise.

Nor would the men be any happier under government ownership — judging from socialist Great Britain, where the workers on the state-owned lines have a never-ending quarrel with the bureaucrats in London.

Salvation of America's railroads depends on their modernization to meet highway and air transport competition — and if the new diesels are simply to become a target for labor attacks, instead of giving the roads the competitive freight rate structure they were supposed to, then there's no future either for the men who manage the railroads or the men who work on 'em.

## Leaders Look to Senate to Restore Funds

Washington, May 11 — (P) — Routed by a last-ditch Republican economy drive, house administration leaders looked to the senate today to restore cuts in a one-package \$28,894,340,164 appropriation bill.

Just how much the house chopped from the measure, passed last night after a month of debate, was a matter of controversy.

But Republicans claimed their two eleventh-hour amendments mean savings of at least a billion dollars — exactly what they had been shooting for. Democrats said the figure would be considerably smaller.

If the senate — which customarily adds to the house totals — can figure out the exact effect of the amendments, it will do better than many house members have been able to do.

Rep. Taber (NY), quarterback of the GOP economy drive, cited a set of his own figures showing that an amendment he offered calling for a \$600,000,000 cut might actually result in savings closer to \$1,000,000.

And Rep. Jensen (R-Iowa) claimed his amendment — which sets a ceiling on the number of federal job vacancies which may be filled in the year starting July 1 — would save \$40,000,000 even though it makes no specific cut in money allotments in the bill.

## Arkansas Is Proving Ground for Righters

Jackson, Miss., May 11 — (P) — Arkansas and Texas were selected today as proving ground for the new States' Rights door-to-door campaign against President Truman's fair deal.

The decision was reached within hours of the endorsement by the third annual States' Rights meeting of a new approach to the two-year-old fight.

Leaders planned to retire "Saturday and Sunday politicians" and replace them with paid organizers in every state.

Cash is the main obstacle still facing the Conservative Southeners.

Vice Chairman W. W. Wright of Jackson, Miss., estimates campaign expenses in 13 southern target states will be \$2,000,000.

## Taft Wins Delay on FEPC Debate

Washington, May 11 — (P) — The senate dug in today for a fight over whether to kill President Truman's plan depriving the general counsel of the national labor relations board of his independent powers.

Senator Taft (R-Ohio) leading the battle against the reorganization proposal, predicted it would be dead, possibly by nightfall. By law, either the senate or house alone can junk a reorganization plan, if a majority of its members vote against the proposal.

The NLRB plan would abolish the office of General Counsel Robert N. Denham and transfer his functions to the five-member board.

Taft won an initial victory yesterday when the senate voted, 50 to 22, to lay aside a motion to take up a fair employment practices (FEPC) bill and to turn instead to his resolution to disapprove the reorganization plan.

Taft told reporters he figured he would lose five of the 50 votes he got to take up his resolution, because he drew support from some southern Democrats who are against the FEPC bill but who will not oppose the reorganization plan.

## Accused Attorney Questioned by Committee

Hot Springs, May 11 — (P) — Morris Hecht, Hot Springs attorney accused of malpractice in a divorce case, was questioned for two and a half hours yesterday by the bar rules committee of the Arkansas Supreme court.

The Supreme court had ordered the committee to investigate whether Hecht should be disbarred.

No announcement was made following the closed-door hearing.

Perspiring heavily as he left the hearing room, Hecht told a reporter:

## AFL Pledges to Seek Higher Wages

Philadelphia, May 11 — (P) — The AFL through its executive council today served notice on the nation's employers it will "strive" for higher wages in 1950.

President William Green told a press conference yesterday the council urged "unions to strive for higher wages" as a means of increasing consumer income.

"Higher wages will increase purchasing power and will broaden the market for all types of goods and services as well as stimulating increased efficiency in business," Green said.

The labor leader explained that "purchasing power must expand progressively and maintain a balance with productivity, otherwise surpluses will increase unemployment."

Green said industry has been modernizing plant and machinery and thus was able "to increase productivity."

"This," he added, "reduces cost and makes possible higher wages. It is possible for industry to give up some of its higher earnings without increasing costs."

## U. S. May Arm Pact Nations With A-Bomb

Washington, May 11 — (P) — U.S. military officials are considering the idea that this country should arm its North Atlantic allies with atomic bombs.

Discussions are in the preliminary stage, and the military authorities are still far from a recommendation on which the President might base a proposal to congress.

The idea of placing atomic bombs within reach of Britain, France and other allies is being explored thoroughly, however, and military arguments are developing both for and against it.

Advocates contend that some way must be found to arm Western Europe faster and cheaper than is possible with conventional weapons.

They argue that the job must be done in two years, the earliest time by which it is estimated Russia may have a stockpile of atomic bombs adequate for a major blow in an atomic war.

The proposal for A-bomb sharing, friends of the idea say, calls for a revolutionary concept of Western defense. In brief this concept calls for replacing many expensive ground troops in Europe with bombing groups supplied with large arsenals of light weight atom bombs.

Advocates say such a plan could be put into effect quickly and at far less cost than conventional defenses, on which they argue Russia would like to see the West spend its resources.

The nearness of atomic supplies also might deter the Russians from launching an aggressive action, they contend.

## Garland PTA Plans Home Pilgrimage

Eight homes of Hope will be open to the public during a pilgrimage sponsored by the Garland PTA, Thursday May 18 from 2 to 5 p.m.

The A. E. Slusser home, 202 West Ave. C, is first on the list and all visitors will register and pay a small fee which entitles them to make the tour which will end at the Frank Douglas home 1202 S. Main. The six other homes to be visited will be announced later.

## Fort Smith Club Members Advertise Annual Rodeo

Police-car sirens really opened up here today in escorting a group of 60 Fort Smith, Arkansas Round-up club members through the city. The convey is advertising the 17th Annual Arkansas-Oklahoma Rodeo at Fort Smith on May 27.

## Six Negro Youths Nabbed for Two Break-ins Here

City police yesterday took six negro youths in custody for break-ins at Deal's Jones' Place and Shover Street Dinette. Negro establishments on the nights of May 2-9.

Only candy, gum and small change were missing. Ages of the youths, all boys, range from 15 to 18 years.

## Tent Revival Starts Friday at Courthouse

A city and countywide tent revival starts Friday, May 12 at 7:30 p.m. and continues through May 28 with the Rev. Walter Cross, B. D. bringing the message nightly. The tent is located near the armory on the Courthouse Square. The public is invited.

## No Compromise Dims Rail Strike Settlement

Chicago, May 11 — (P) — A strike by railroad firemen against four major rail systems today threatened sharp cuts in many segments of the nation's industries.

Prospects of an early settlement in the long dispute appeared dim. The crippling walkout, which started yesterday, directly involved only 18,000 firemen. But thousands of other rail workers — maybe as many as 200,000 — may be idle if there is not a quick settlement. Countless other thousands are expected to be made idle by a long strike.

Some industries felt the impact of the firemen's work stoppage immediately and started curtailing operations. Some coal mines were among the first to feel the effect of the strike called by the brotherhood of locomotive firemen and enginemen.

A third of the country's rail passengers and a fifth of the rail freight movement was disrupted. The tieup caused cancellation of service on at least five other lines. Bus and airlines reported a big increase in business.

## Butterworth, Heath Named Ambassadors

Washington, May 11 — (P) — Assistant Secretary of State W. Walton Butterworth has been selected as President Truman's next ambassador to Sweden. His nomination probably will be sent to the senate next week.

For another key diplomatic post — of primary importance in the cold war in Asia — the administration has chosen Donald R. Heath, former American minister to Bulgaria, to be envoy to India.

Heath, whose enforced recall from Bulgaria caused a break in relations with that Communist satellite state, is expected to be U.S. representative to all three of the Indo-Chinese governments — Vietnam, Laos and Cambodia — with his main headquarters at Saigon.

At Stockholm Butterworth is slated to replace Ambassador H. Freeman Matthews, whose appointment as deputy undersecretary of state in charge of political affairs in the state department is due to be announced soon.

The deputy undersecretaryship, one of the top administrative positions in the state department, is now vacant. The vacancy was created when Dean Rusk, one of Secretary of State Acheson's chief advisers, was shifted from that post to become assistant secretary of charge for Far Eastern affairs, a hot spot assignment in which he replaced Butterworth.

Arriving home from military service Mr. Feild reopened his law office in Hope and was elected without opposition as a Representative to the Legislature.

## The Northwest Pacific Feels It Is the Promised Land of the American Future

By HAL BOYLE

Seattle — (P) — The great Pacific Northwest is beaver busy today.

It feels it is the promised land of the American future. But it is something like a young boy reaching the seed stage, who is growing right out of his clothes.

The area is developing so fast it is finding it difficult to keep up with the demands of its post-war expansion. It is still building like mad.

Almost everywhere you look, you see trees going down and homes going up, as the cities reach out into the woods. And new factories are springing up to serve a mushrooming population.

The power supply is already strained in some sections, and dozens of dams are being built, or are in the planning stage, to tap fresh might from the Northwest's roaring mountain streams.

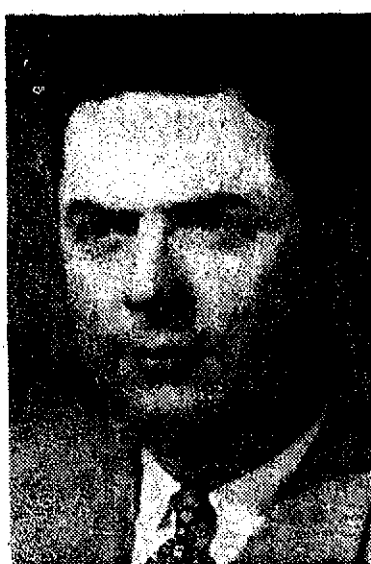

To a casual visitor there appears to be no letup in the post-war boom. But it is curiously unlike other booms in United States history. There is an unmistakable solidity about it.

You get the feeling there are almost as many real estate offices about as there are filling stations. But the land salesmen aren't serving free lunches or hiring jive bands to lure the customers in, as was customary in Florida during the hectic boom there in the 1920's.

It's a high-priced area, and the wages are generally high. I found this out when I got a shoe shine at the Seattle-Tacoma airport, and the boy said, "two bits, please."

That didn't include a tip either. But they don't tip as much out here as they do in the East.

There are short cuts to keep down the costs. People in the Northwest seem to know how to do more things from themselves than they do in some other sections.

Talbot Feild, Jr.

## Field in Race for District Prosecutor

The Star has been authorized to formally announce the candidacy of Talbot Feild, Jr., for Prosecuting Attorney of the Eighth Judicial District comprising the counties of Hempstead, Nevada, Lafayette, Miller and Clark.

He is the son of Talbot Feild of Texarkana, Ark., and his maternal grandparents are the late Captain and Mrs. J. T. West, early settlers of Hempstead county. He has one sister, Miss Hattie Anne Feild of Hope and Hot Springs.

His wife is the former Miss Carlene Bruner of Hope.

Talbot Feild, Jr., born and reared in Hope, attended the Hope public schools and was president of his junior and senior classes. He was active in sports, earning letters in football and track. He was a student at the University of the South, Sewanee, Tenn., the University of Texas, Austin, and received his degree in law from the University of Arkansas. Before graduating from law school he was elected one of Hempstead County's Representatives to the Legislature, and following graduation he was admitted to the bar and opened his law office in Hope.

In the spring of 1942 Mr. Feild volunteered for military service. Upon entering service he immediately underwent flight training and served as a Naval Aviator after receiving his wings. Shortly before going overseas he was ordered to the Naval Air Command Intelligence School at Quonset Point, Rhode Island. Graduating therefrom he was sent to the Western Pacific. Returning to the United States soon after the Japanese surrender he served several months as Naval Contract Termination Officer in East Hartford, Connecticut. Mr. Feild is a Commander in the United States Naval Reserve.

Arriving home from military service Mr. Feild reopened his law office in Hope and was elected without opposition as a Representative to the Legislature.

## 2974 Attend Study Days at Hope Station

The third study day at the University of Arkansas Experiment Station brought 2974 veterans on-the-job trainees from 17 Arkansas Counties bringing the 3-day visit total to 2,974. Last year 2,200 attended during the 3-day study period.

Counties with the most representation in order are: Hempstead, Nevada, Pike, Howard, Clark, Hot Springs, Ouachita and Lafayette.

The veterans started a day-long tour of the station with 40-minute stops for demonstrations along the route.

Discussions centered on fruit and vegetable production, new information on overhead irrigation, forestry experiment results, mixing and applying peach sprays, oat varieties and fertilization and cotton insect control.

Extension specialists in charge include: Roy Lambert, marketing specialist; James Gattis, and James E. Ferguson, agricultural engineers; Earl J. Allen, horticulturist; Robert Nelson, forester; Curtis L. Mason, plant pathology professor; Wheeler R. Perkins, agronomist and Charles G. Lincoln entomologist.

## McCarthy Ready to Offer Proof

Washington, May 11 — (P) — A state department denial of Senator McCarthy's "foreign agent" charge against an American envoy brought a McCarthy promise today to provide proof.

"I can do it and I will do it at the proper time," the Wisconsin Republican declared.

McCarthy spoke out as members of a senate foreign relations committee investigating his charges of communism in the government arranged to return to the White House to continue their study of federal loyalty files.

The study, started yesterday, covers the files of 81 persons McCarthy has accused of being Communists, Red sympathizers, or security risks on other grounds. Senator Tydings (D-Md), the committee chairman, estimated that it will take at least two weeks to complete the survey.

McCarthy's charge that a United States minister to a European nation is a foreign agent was made in Wisconsin last Sunday. He did not name the individual, but said the man is his case No. 2 among the 81 being studied by the inquiry committee.

## Fletcher Is Suicide Says Coroner

Little Rock, May 11 — (P) — Pulitzer prize winning poet John Gould Fletcher drowned in a shallow pond near his country home yesterday.

Coroner H. A. Dishough said the death was suicide.

Dr. Dishough said Fletcher, 65, had been in ill health about five months.

Mrs. Fletcher, who writes children's books under the name of Charlie May Simon, said her husband had gone when she awoke yesterday morning.

When he did not return, a search was started. The body was found in a few feet of water yesterday afternoon after Fletcher's hat, coat and watch had been found nearby.

Fletcher won the Pulitzer prize for poetry in 1930 for his "Selected Poems." He was the first southern poet to be so honored.

He wrote many other works, poetry, biography, history and criticism, beginning with "Fire and Wine" published in 1913.

A native of Little Rock and a member of a prominent Arkansas family, Fletcher was educated at Harvard university and lived abroad, mostly in England, for many years.

He returned to Arkansas in 1933. Twice married, Fletcher is survived by his second wife and by two sisters, Mrs. David D. Terry, Little Rock, wife of a former Arkansas congressman, and Mrs. Mary F. Drennan, Monks, Mo.

Funeral arrangements will be announced.

## Flood Situation in N. Arkansas Much Improved

By United Press  
An improved situation was reported in the flooded areas of northwest Arkansas today despite continued heavy rains last night and this morning.

Schools at Rogers were reopened following heavy flash floods which inundated the surrounding area. Some school buses, however, still were having difficulty making their routes because of washed out highways and bridges.

Several Washington and Benton county highways were reopened to traffic today including highway 100 north of Bentonville, U. S. highway 66 from Springdale to Hoam Springs and Huntsville, and U. S. highway 62 as far west as Westville, Okla., where it is still closed. U. S. highway 71 was not closed.

Continued drizzling rains were expected to bring further rises to the Illinois and upper White rivers. But there was no additional flooding within the towns of Fayetteville, Springdale and Rogers.

Fayetteville reported an additional 3.05 inches of rain in the past 24 hours, Buffalo Tower 2.10, Huntsville 2, Berryville 1.65 and Mammoth Spring .63. Rain also continued at Rogers and Springdale.

## Public Asked for Opinion on Parking Meters

At the last meeting of the City Council it was decided that the question of parking meters would be made the subject of open discussion at the next meeting Tuesday, May 16. Several petitions have been filed which are signed by numerous merchants in Hope and by citizens of neighborhood communities in the Hope area territory. In view of the filing of these petitions, and the request for action thereon, the Council has decided that a decision should be made. Any and all persons opposed to the installation of parking meters are particularly invited to either file petitions or appear in person before the Council on May 16.

Under the law, parking meters cannot be installed without a vote of the people. Upon the basis of public expression the Council will decide whether or not it will pass an ordinance authorizing installation of parking meters, if and when this is done it will be referred to the people for a vote.

France's plan to pool much of Europe's coal and steel resources. U. S. Secretary of State Dean Acheson already has given his "sympathy and approval" to the idea behind French Foreign Minister Robert Schuman's proposal. The British, who received the plan with astonishment and reserve, would say nothing about it at first except that it would be studied. Soon after Acheson's implied approval, however, a British foreign office spokesman said Britain regarded Schuman's proposal as most important. He said Britain long had been anxious to find a solution to the age-long feud between Germany and France. The plan is intended to do just that.

## Low-Cost Power a Must Says Truman

Grand Coulee Dam, Wash., May 11 — (AP) — President Truman declared today his determination to develop low-cost public power on all the country's great rivers and fight against its use "for private profit."

"We have embarked, all over the country, on the task of fully developing our resources for all the people," he said.

"And we shall have to continue to overcome the opposition of those who do not understand the greatness of our goal, or who fear the impairment of their selfish interests."

"We will meet opposition from private power groups. Many of them — there are honorable exceptions, of course — do not want the energy of our rivers put to use as power and sold to the people at cost."

The President spoke out sharply

will enforce the laws of the State impartially and fearlessly. I earnestly solicit the active support, influence and vote of all citizens.

All the regular practicing attorneys of Hope and Hempstead county, except those not prohibited by law from giving endorsements, nor candidates themselves, or their associates, have commended to the voters the candidacy of Talbot Field, Jr., for Prosecuting Attorney. They have stated that in their opinion he has the necessary qualifications for learning, training, experience and moral and intellectual integrity so essential for this position of trust.

## Strike Not to Interrupt President's Trip

Chicago, May 11 — (AP) — President Truman's cross country train trip apparently will not be interrupted by the railroad firemen's strike which began today.

David B. Robertson, president of the Brotherhood of Firemen and Engineermen, said recently that "special instructions" had been issued to union members to see to it that the presidential train is moved "safely and expeditiously."

The presidential train was in Idaho today. The President will return eastward for a Chicago speech set for May 15.

## Says Gamblers Are Going Into Business

Washington, May 10 — (AP) — Senator Ferguson (R-Mich.) said today the nation's racketeers are investing big money in legitimate business to become America's "new rich."

And he added that is danger that these underworld leaders will make a deliberate effort to sidetrack a senate investigation of big-time gambling and organized crime.

Vice President Barkley is expected to throw the crime inquiry into high gear very shortly by announcing the names of the five senators who will form the special investigating committee.

The only senator virtually assured of an appointment is Senator Kefauver (D-Tenn.). He sponsored the resolution calling for a crime inquiry, and is slated to become chairman.

But Barkley has given no hint about the appointments. Republican leaders are reported to have

**CREAMO ONLY MARGARINE WITH CREAM**

Choice of yellow quarters or uncolored pounds

Housewives will be interested to know Creamo Margarine's popularity has grown faster in the past few years than the combined average of all other brands. This is due to the fact that Creamo is the only margarine made with cream.

In taste tests between Creamo and the most expensive type breads, participating school children chose Creamo Margarine 5 to 1.

Users say Creamo's creamy-rich flavor is so distinctively delicious, the first taste is noticeably more flavorful than ordinary spreads. Not only does Creamo taste better—it's more economical, too. The extra flavor goes so much further than ordinary spreads.

"It's amazing — I just heard Creamo's the only margarine made with cream" (see column at right)

**Well Digger Dies Just Before Rescue**

New York, May 11 — (UP) — Well-digger Dominick Atteo, 45, was wasting his time digging the well which claimed his life by torture.

The partially-dug hole that held him prisoner in pain and shock for more than 27 hours, would have been condemned by the city.

Howard Cobb, building and housing department inspector, said the well Atteo was digging in a public garage to provide a water supply to wash cars was sunk only a few feet from the lone girder supporting the garage roof. It wouldn't have passed safety inspection.

It was the final note of irony in a futile race with death to save Atteo's life yesterday. Death got him, only minutes ahead of rescue.

Mr. and Mrs. George Stroud of this city announce the marriage of their daughter, Martha Jean to William Herschel Vines, son of Mr. and Mrs. W. T. Vines of Bodcaw.

The single ring ceremony was solemnized at 8 o'clock Monday evening at the home of Judge Brad Bright of Prescott.

The bride wore a white moiré taffeta dress with white accessories and her flowers were a red rosebud corsage.

The couple's only attendants were Miss Donna Burger of Hope and Glendon Britt of Dallas.

Immediately following the ceremony, the couple left for Dallas where they will make their home.

For traveling the bride chose a tan suit with red accessories and pinned her corsage of red rosebuds at her shoulder.

The bride attended Hope High school and the bridegroom is a graduate of Bodcaw High school and served with the army.

**Why just listen to reasons ?**

**COME SEE FOR YOURSELF !**

THIS TIME we'd like to tell you about something that you cannot see in this picture—something, in fact, you cannot know about from looking at someone else in a passing Buick—or from viewing a Buick on our showroom floor.

It's the feel you get from a Buick in motion.

You are going to find out that it is something like traveling on your own private, jet-propelled cloud—only firmer.

Maybe you know a stretch of wash-board road, where you have to slow down, or bounce and jitter.

Try that in a Buick and see how you keep a level, comfortable boulevard smoothness.

Maybe you're always on edge to dodge dips and chuckholes. Those also lose

most of their jolt when you're at the wheel of a Buick—or in the rear seat.

In a few simple words—the ride of any Buick—SPECIAL, SUPER or ROADMASTER—is out of this world.

We could give you a lot of reasons. Soft coil springs on all four wheels, for example—the firm linkage of the torque-tube drive—the distribution of weight—big soft tires on wide rims—the way Buick engines are mounted.

Even Dynaflo Drive\*—always silk-smooth and free of geared-drive harshness—plays its part in the marvelous Buick ride.

But why simply listen to reasons? Experience is still the best teacher.

Come see for yourself why the Buick ride is called "matchless"—and how little it costs to replace a jitterbuggy with one of these level-striding honeycs.

\*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

**ONLY BUICK HAS Dynaflo— AND WITH IT GOES:**

# This Time The Anti-Trust Lawyers Won A Case Against A&P

As almost everyone now knows, the anti-trust lawyers in Washington have brought a civil suit to destroy A&P. They ask the courts to order the dissolution of this company.

They say that this suit is based on the fact that they won a suit against us at Danville, Illinois, in 1946.

They did. In that case, Federal Judge Walter C. Lindley made a decision against A&P.

Immediately thereafter, in a letter explaining his decision, Judge Lindley wrote:

*"I have not condemned the A&P system.*

*I have not made a finding which could be the basis for a suit of dissolution."*

So, now we have the anti-trust lawyers saying that their suit to dissolve A&P is based on Judge Lindley's decision; while Judge Lindley himself says his decision could not be the basis for a suit of dissolution.

In previous ads we told you about the cases against A&P which the anti-trust lawyers lost. We promised to tell you about this case they won. Here is the story of the Danville case.

## What Judge Lindley Objected To

At Danville, the anti-trust lawyers made all of the charges which they are again making against A&P today. They were substantially the same charges they had made and dropped at Dallas, Texas, after four federal judges had objected to some of them as "inflammatory." In his decision, Judge Lindley was critical of some of our activities. He threw some of the charges out of court. He did not make any decision on others.

He even took occasion to praise A&P for the efficient job of food distribution it had done.

Judge Lindley said:

*"To buy, sell and distribute to a substantial portion of 130,000,000 people, one and three-quarter billion dollars worth of food annually at a profit of 1½ cents on each dollar, is an achievement one may well be proud of."*

*"No place in the world I take it are people so well fed as in the United States. Nowhere else, I suppose, do food distributors accomplish efficient distribution at so low a margin of profit. In contrast, we are told in other nations the problem is not one of an adequate diet but one of no diet at all."*

But Judge Lindley did find us in violation of the Sherman Act. He based his ruling on the dual role played by our fresh fruit and vegetable buying subsidiary, the Atlantic Commission Company, whereby that organization acted both as buying agent for A&P and as selling agent for growers.

Judge Lindley said:

*"If I assume for the purpose of disposition of this case that in general the policy of A&P was to operate within the law and attribute to defendants a desire to comply with the law, there still remains the conscious, knowing adoption by all defendants of a plan of action by the Atlantic Commission Company affecting every department of A&P and every retail store which cannot be squared with the intent and purpose of the act."*

In his letter explaining the decision, Judge Lindley wrote: *"I have condemned their practices through the Atlantic Commission Company."*

Judge Lindley imposed fines totaling \$175,000. When his decision was upheld by the Circuit Court of Appeals in Chicago, we paid the fines. This ended the case—but we did not stop there.

## What We Did To Correct This

In the light of the decision, we immediately set about reviewing our activities to be sure that there could never again be any criticism of our operations.

First, the Atlantic Commission Company abandoned the dual role to which Judge Lindley objected and which he said was the basis of his decision against us.

We did this even though the Atlantic Commission Company had been licensed for many years by the United States Department of Agriculture to act as both a buyer and seller of fresh fruits and vegetables.

The Atlantic Commission Company now only buys for A&P. In other words, *we stopped doing the thing which Judge Lindley said put us in violation of the Sherman Act.*

We made additional changes in other methods of operation which Judge Lindley had questioned at Danville, even though he did not base his decision on them.

We did even more than this!

We went down to Washington and asked the anti-trust lawyers what else they thought we should do to conform to their new interpretation of the vague anti-trust laws.

*The only answer we ever got was that we should break up this company!*

Despite their claim that they were not opposed to A&P's size, *they insisted that we destroy this size.*

Despite their claim that they were not opposed to our manufacturing operations, *they insisted that we get rid of our factories which produce many of the fine foods you buy at A&P.*

Despite their claim that they were not opposed to our low prices, *they insisted that we destroy many of the efficiencies that make these low prices possible.*

In other words, they insisted upon the dissolution of A&P.

We were still trying to find out from the anti-trust lawyers what else they thought we should do to conform to the law when they filed the current suit to destroy A&P.

## Why, Then, Do They Want To Put A&P Out Of Business?

Ever since this suit was filed, the anti-trust lawyers have been making damaging statements that could seriously hurt our business if they were believed by the public.

They say that we were found guilty at Danville of all the charges they are making today. *This is not true. Judge Lindley did not sustain all of the charges of the anti-trust lawyers.*

They say this suit is designed to enforce the law.

*But A&P has clearly demonstrated its sincere desire to abide by the spirit, as well as the letter of the law.*

They say they are seeking to "enjoin" A&P from engaging in certain "alleged" practices. *Actually, the whole purpose of this suit is not to "enjoin" us, but to put us out of business.*

They say that this suit for dissolution is based on the decision handed down by Judge Lindley in Danville.

*But Judge Lindley has said of his decision: "I have not made a finding which could be the basis for a suit of dissolution."*

What, then, is the real reason why the anti-trust lawyers want to destroy this company, which for 90 years has pioneered the methods of distribution which have given the American people more good food for their money?

## Floods Still Menace Wide Section

By The Associated Press

Floods continued to menace parts of North Dakota, Minnesota and southern Manitoba today as the death toll in the flash floods that swept over southeastern Nebraska mounted to 22.

Search continued in Nebraska for the bodies of nine persons reported missing and presumed dead. Thirteen bodies had been recovered. As floodwaters receded, communities surveyed the damage, which was estimated at hundreds of thousands of dollars.

In Winnipeg, the flood situation appeared more serious. One-eighth of the city of some 350,000 population was under water. Muddy waters from the Red river and other streams poured out over more than 500 square miles of southern Manitoba. A train carrying 550 Winnipeg-bound refugees was marooned by a track wash-out near Winnipeg but rail officials said the train was not endangered.

More than 2,000 persons left Winnipeg in response to an official appeal for the city's 200,000 women and children to voluntarily move to less crowded points of safety. Officials were making plans for compulsory mass evacuation, if necessary. There were no casualties.

Ulysses S. Grant's father was a tanner. The boy who was to become president started as an apprentice in the family sole-leather tannery.

## 175,000 See Cotton Carnival Kickoff

Memphis, Tenn., May 10 —(AP)—Some 175,000 spectators turned out last night to watch the 16th annual cotton carnival kick off with a blaze of fireworks.

The royal barge, after a short 11-block cruise along the Mississippi river waterfront, edged to a landing and the carnival king and queen stepped out and took over the five-day festival. It ends Saturday night.

King this year is R. E. L. Wil-

son III. of Memphis and Wilson. Ark. His queen, Mary Letitia Gregg, senior at Memphis State college. They were presented the keys to the city by Mayor Watkins Overton.

Today is maid of cotton day, in honor of Mild Elizabeth McGee of Spartanburg, S. C.

## Sports Mirror

By The Associated Press  
Today A Year Ago — Washing-  
ton defeated Detroit, 11-1, for its  
ninth straight victory in the Ameri-  
can baseball league.

Five Years Ago — The New  
York Giants, with 18 triumphs and  
five setbacks, topped the National  
league.

Ten Years Ago — Bimelech won  
the Preakness at Pimlico.

Fifteen Years Ago — Omaha  
copped the Preakness with Fire-  
horn second and Psychic bid  
third.

Early matches were called "luci-  
fers" or "damers" because they  
spluttered so badly, according to the  
National Geographic Society.

## Legion Home Tonight; Cats Win 9 to 8

The Hope Legionnaires tangle  
with the Red River Tomcats of  
Texarkana at 8 o'clock tonight at  
Fair Park in a non-loop contest  
that promises plenty of action.

Friday night the Hope boys  
again entertain Mineral Springs in  
a regularly scheduled game.

Last night at Fair park the Bob-  
cat baseball team downed Mineral  
Springs 9 to 8 in a close contest  
that saw the lead change hands  
several times. Bill Gunter was the  
winning hurler giving up 8 hits  
while the losing pitcher, Jones, al-  
lowed the Hope boys 9.

Holding a comfortable lead in  
the 5th Hope allowed the visitors  
to tie it up and score 4 runs in  
the next inning to take an 8-5  
lead. Hope tied it in the 7th and  
won in the 8th. The Bobcats play  
North Heights here at 3 p.m. Fri-  
day.

## PIG AND CHICKEN FEET

Washington, May 11 — (AP) —  
Bricks bearing the prints of pig  
and chicken feet have been dug  
out of the White House walls by  
men rebuilding the historic man-  
sion's interior.

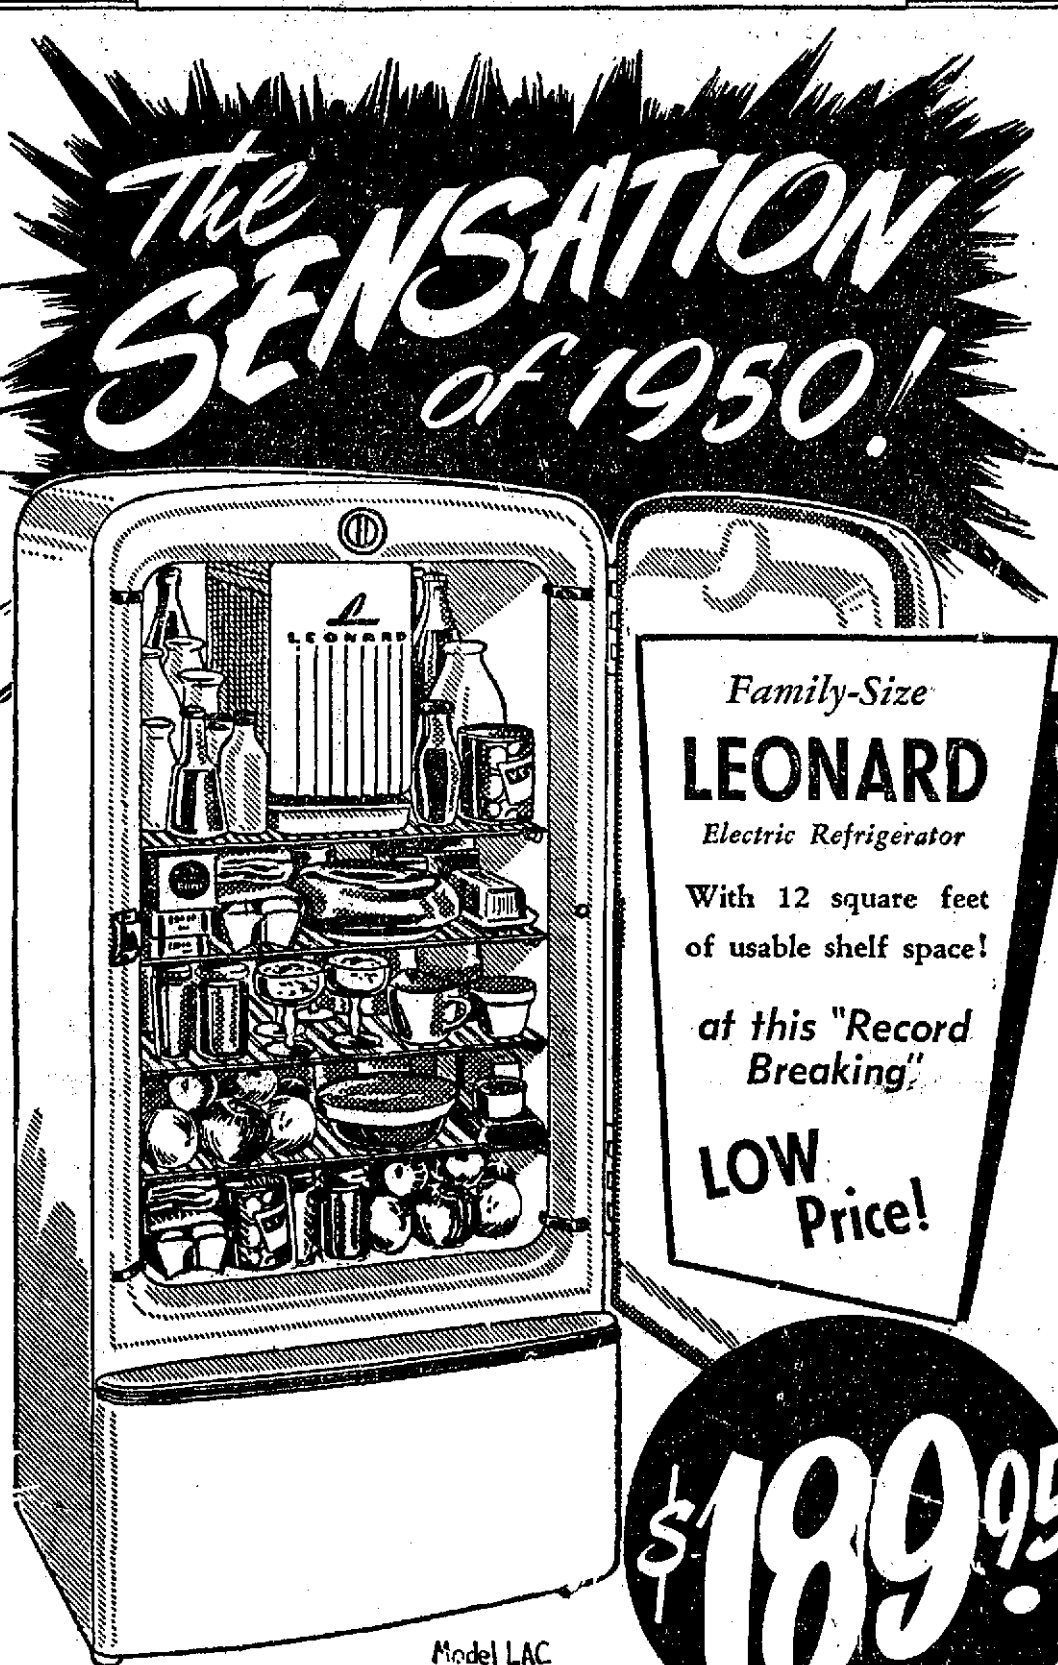

Army engineers attached to the  
renovation commission expressed  
the belief the bricks were made  
on the site around 1780 and that  
pigs and chickens roaming the  
area stepped on them before they  
were baked.

Many early day mines in the  
west bore the names of miners'   
girl friends.
